## **MTAR 2019 CONFERENCE ORGANIZING COMMITTEE**

### **Conference Chair**

**Farooq Ahmed Jam (Ph.D.)**

*Executive Director (Global Illuminators)*

### **Conference Co-Chair**

**Tariq Iqbal Khan (Ph.D.)**

**Assistant Professor**

*University of Haripur, Pakistan*

### **Conference Co-Chair**

**Muhammad Abbas (Ph.D.)**

*Director Policy & Research (Global Illuminators)*

### **On Chee Hoong**

*Manager Operations (Global Illuminators)*

## Conference Chair Message

**Farooq Ahmed Jam (Ph.D.)**

6<sup>th</sup> International Conference on “Multidisciplinary Trends In Academic Research” (MTAR - 2019) serves as a platform that aims to help the scholarly community across nations to explore the critical role of multidisciplinary innovations for sustainability and growth of human societies. This conference provides an opportunity to the academicians, practitioners, scientists, and scholars from across various disciplines to discuss avenues for interdisciplinary innovations and identify effective ways to address the regional and global challenges faced by our societies. The research ideas and studies that we received for this conference are very promising, unique, and impactful. I believe these studies have the potential to address key challenges in various sub-domains of social sciences and applied sciences. The scholars attending this conference will certainly find it helpful in refining their own research ideas, finding solutions to basic/applied problems they face, and interacting with other renowned scholars for possible future collaborations.

I am really thankful to our honorable scientific and review committee for spending much of their time in reviewing the papers for this event, selecting the best paper awards, and helping the participants in publishing their research in affiliated journals.

Also, special thanks to all the session chairs from industry, academia, and policy-making institutions who volunteered their time and support to make this event a success.

A very special thanks to the great scholars for being here with us as keynote speakers. Their valuable thoughts will surely open the horizon of new research and practice for the conference participants coming from across the globe. I am also thankful to all the participants for being here with us to create an environment of knowledge sharing and learning. We, the scholars of this world, belong to the elite educated class of this society, and we owe a lot to return to this society. Let's break all the discriminating barriers and get free from all minor affiliations. Let's contribute even a little or single step to the betterment of society and the welfare of humanity to bring prosperity, peace, and harmony in this world. Stay blessed.

## Types of MTAR Papers

For this year, MTAR has two types of papers: *Empirical Studies* and *Insight*. Research papers meet the needs of researchers and are reviewed on the basis of highest academic standards. The objective of the academic paper is to contribute to the scientific body of knowledge. On the contrary, Insight papers meet the needs of policymakers and professionals and are reviewed on the basis of high practice standards. The objective of the Insight is to identify real-world problems and how they can be solved with the help of information systems.

## Reviewing Criteria

In MTAR, all papers are judged on the same criteria (relevance, significance, originality, validity, and clarity). However, some criteria differ between the Research papers and Insight papers.

**Relevance:** Relevance has a great impact on the theme of the conference. The material is relevant and according to the theme of the conference.

**Significance:** Knowledge of different researches in the conference is related to research papers and insight papers.

**Originality:** Ideas that are new for the researchers are used in the conference.

**Validity:** Research papers in the conference are based on theory, while the insight papers in the research are based on experimental researches. References are according to content.

**Clarity:** Papers are according to the format; language is easy and understandable by the audience in the conference.

### Acceptance Rates

Full Research Papers				
Submitted Papers	Accepted Papers	Withdrawn	Unqualified papers	Acceptance Rate
30	10	7	13	33.33%

### Copyright Agreement

In MTAR 2019 proceedings, all authors have agreed on the copyright agreement. This agreement shows that only authors can retain copyright. It also permits that nobody can use, for a non-commercial purpose such as to download, print out, etc., an article published in the MTAR 2019 proceedings. All credit is given to the authors, and they have copyright agreements. This copyright agreement and use license ensure, among other things, that an article will be as widely available as possible and that the article can be included in any scientific archive.

## **Acknowledgment**

A huge number of people helped in conducting the conference. First of all, thanks to all the members of the Conference and Program Committee and representatives of the MTAR board and their helpers. We also want to thank all the Track Chairs and reviewers, as well as all the members of the Scientific Committee, for their help in the review process and organizing the tracks and special sessions. We thank everyone for their hard work and dedication to this conference, and we look forward to the latest episode of the MTAR tradition.

## **MTAR 2019 Tracks’ Chairs**

### **Business, Management Economic, Social Sciences, and Humanities**

Dr. Mohammad Nisar Khattak

### **Engineering and Technology Studies**

Dr. Mohammad Nisar Khattak

## **MTAR 2019 Workshop**

### **“How to Improve the Quality of A Research Article and Get It Published in Scopus/ISI-Indexed Journals.”**

**Trainer: Dr. Mohammad Nisar Khattak (Ph.D.)**

In this workshop, we will discuss how to improve the quality of a research article and to get it published in good quality journals. Publication is considered as a KPI achievement for academic staff. It is considered to be the best way to enjoy benefits and promotion as a faculty member. In this workshop, trainer will shed light on how to identify a hot research topic, how to find a research gap, importance of a catchy Research Paper Title, what reviewers are looking for in a research article, what editors are expecting from authors, major reasons for article rejection by good journals, steps and tips to improve article quality and content, and finding a relevant outlet for your research. I hope this workshop will help the participants improve their understanding of the publication process.

In this workshop, we will discuss how to improve the quality of research article and getting published in good quality journals. Publication is considered as a KPI achievement for academic staff. It is considered to be the best way to enjoy benefits and promotion as a faculty member. In this workshop trainer will shed light on how to identify a hot research topic, how to find a research gap, Importance of a catchy Research Paper Title, What Reviewers are looking in research article, what editors are expecting from authors, Major Reasons of article rejection in good journals, Steps and tips to improve article quality and content and Finding a relevant outlet for your research. Hope this workshop will help the participants improve their understanding about publication process.

**Closing Ceremony (3:30 pm – 4:00 pm)**

## LIST OF CONFERENCE ATTENDEE’S

The following scholars/practitioners/educationists don’t have any paper presentations; however, they will be attending the conference as delegates and observers.

ID	Name	Affiliation	Country
CSDNA-19-101A	Mr. Seongho Hwang	NHN Diquest	South Korea
CSDNA-19-102A	Mr. Kwantaek Lim	NHN Diquest	South Korea

## **DAY 02 Saturday, (September 28, 2019)** **“CITY TOUR”**

Gathering of Participants at the Lobby of Holiday Inn Bangkok Silom,  
Bangkok Thailand at 2:00 pm

Departure: 2:30 pm for City Tour

Drop Back at Holiday Inn Bangkok Silom, Bangkok Thailand at 9:00 pm

**Important Note:** This tour is organized by Global Illuminators and entry to this tour is free for all participants. You may also bring your Siblings/Family/Friends but you have to register for them on registration desk.

## **TRACK B: SOCIAL SCIENCES AND HUMANITIES STUDIES**

## **Research-Based Approach in Business Courses: An Anchor for Industrial Design Students' Complex**

**Jayson E. Lannu\***

De La Salle-College of Saint Benilde, Philippines  
School of Design and Arts-Industrial Design Program, Philippines

### **Abstract**

---

Students' academic lives are culminated with research allowing them to integrate and materialize learnings and translating this knowledge into financially and socially feasible business ventures. De La Salle-College of Saint Benilde is a higher learning institution providing an environment that promotes an entrepreneurial atmosphere, especially the Industrial Design Program. Current students manifest high skill in design, but despite availability of the latest equipment, facilities and highly trained design professors, it was noticeable that students are challenged on the business aspect of the design industry. It was the intent of the study to determine and tailor-fit a teaching methodology that espouses higher level of learning considering concepts in management, marketing, production/operations management. The proponent consolidated a five-year comparative data utilizing traditional approach in teaching for midterm and research-based approach for finals among students from 2014 to 2019. An average class size of forty (40) students per subject enrolled under Management in Design Practice, Principles of Marketing in Design Practice, Strategic Marketing in Design Practice and Production/Operations Management in Design Practice were among the students subjected to these teaching interventions. The results of the study provided a remarkable improvement in the students' academic performance given a specific rubric in scoring research outputs with the close monitoring and guidance of the proponent. This evidence supports the researcher's contention that a research-based approach in teaching business is a grounded foundation and an effective preparation for students who will be taking up COMPREX (Industrial Design Thesis) as a capstone requirement for graduation. Research in business provides the basic business framework and model that students can work with and develop to make their business ventures thrive in the design industry in the future. It is recommended that courses under the business cluster institutionalize the use of a research-based approach through a research output as a final requirement for these courses.

To be Continued .....

To be Continued .....

A review of the current syllabi must also be undertaken to integrate and formulate guidelines and rubrics in conducting and scoring research outputs. Cluster alignment must also be initiated to ensure that professors are calibrated and well-equipped with teaching materials that are common to all business courses. Finally, seminars and workshops should be conducted as part of the faculty development program.

## Students' Perception of Talk Utilized by University Lecturers

**Arif Rahman\***

Universitas Negeri Malang, Indonesia

### Abstract

---

In teaching and learning process, language input plays an essential role. Based on this fact, it is necessary for teachers to take account of the way how they deliver the information. Students will be easier to acquire foreign language if they have sufficient comprehension of what teachers talked to them. Hence, knowing the student's perception of the teacher talk is very important. Teacher talk is considered as one of major language inputs that help learner to acquire the second language and the trigger of classroom interaction in which communication occurs. Here, the researcher wants to investigate the student's perception of the lecturers' talk in the form of quantity, complexity, relevance, and clarity utilized by the lecturers in the classroom.

## Exploring New Business Models of Enterprise from the Point of View of Circular Economy - A Case Study of Chyhjiun Jewelry

**Chan, Hsiao-Ching<sup>1\*</sup>, Tu, Jui-Che<sup>2</sup>, Chen, Chi-Hsiung<sup>3\*</sup>**

<sup>1,2,3</sup> National Yunlin University of Science and Technology. Yunlin, Taiwan

### Abstract

---

Under the development of linear economy, global enterprises have faced the tough situations of resource exhaustion, the collapse of natural environment, and economic growth's being hard to persist, while our living environment also undergoes a severe test. Moreover, Taiwan extremely relies on imported resources. Thus our thinking of economic development must be transformed. Therefore, the research purpose was to take the point of view of circular economy to explore the business model that the case company CHYHJIUN Jewelry could develop, as well as its anticipated benefits. The research made use of expert interview method, participant observation, and secondary data collection method, and adopted the ReSOLVE framework to probe into its business model and anticipated benefits. The research results showed that: 1. The case company CHYHJIUN Jewelry could develop into six innovative business models. 2. It had the anticipated future benefits of keeping the cost down, fulfilling the corporate social responsibility, creating the value-added brand image, and inspiring other enterprises to follow up.

## The Product Design for the Nocturnal Care to Seniors

**I-Chun Chen<sup>1\*</sup>, Xie Tan Yu<sup>2</sup>, Yeh Shu Pei<sup>3</sup>**

<sup>1,2,3</sup> Kun Shan University, Tainan, Taiwan

### Abstract

---

The elegant lace has always been one of the designers' favorite elements. However, it is notable how the unique feature of nocturnal illumination from lace can be incorporated with other senior-oriented products in order to elevate its security and aesthetics. This study utilizes the feature and design of lace luminescence to conduct analysis aiming at the indoor slippers worn by seniors. The result of the study has shown that by applying the luminescent silk material onto the seniors' slippers, the nocturnal illumination feature of luminescent lace can effectively guide the seniors when conducting any activities late at night since the product emits fluorescence, it improves its safety. The study integrates the aesthetics of lace with the nocturnal illumination for the seniors to develop a practical and aesthetic product for seniors, and it will escalate the innovation and development for the products targeted at the senior market impressively.

## The Study of the Exterior Architectural Design of the Kyomachiya

**Ching-Chu Hung<sup>1\*</sup>, Chen-Fu Wang<sup>2</sup>, Chih-Chieh Yang<sup>3</sup>**

<sup>1,2,3</sup> National Yunlin University of Science & Technology

### Abstract

---

The Kyomachiya in Japan is the one that possesses the most traditional woodwork construction method, this study probes the construction method by applying the method of literature discussion for an in-depth analysis on the exterior and design of Kyomachiya architecture. The result of the study shows that buildings established prior to the 25th year of Showa era (The year of 1950) administer the traditional wooden framing construction method to form a single unit of Kyomachiya architecture, as the appearance of the architecture, it is designed with the feature called Koshi for which the identification of landlord's occupation is used. In addition, Kyomachiya architecture owns similar exterior features, such as degoshi, dog's curb, folding chair, rolling blinds, and clay tilt. Since Machiya inherits its cultural background and style, it is still meticulously preserved by the Japanese government as a tangible cultural asset.

## The Relationship between Financial Agglomeration and Economic Development: The Case of the Five Provinces in Northwest China

**Xiao Xi\***

National Institute of Development Administration, Thailand

### Abstract

---

Finance is the general hub of modern market economy operation and plays a non-substitutable important position in economic progress. The fact of financial agglomeration in promoting the economy has been confirmed in the southeastern coastal areas of China, but for the inland areas of the northwest, there is still little research for this "new topic", this field of research is still waiting for people to explore. This paper firstly combs the relevant theories of financial agglomeration. On this basis, the five provinces that constitute the northwestern region of China are selected as the research areas. The total amount of financial agglomeration is set as the main explanatory variable, and the GDP growth rate is chosen to be the main explained variable, then we collected and established the panel data for 2008 to 2017. By processing and testing the data, this paper constructs a fixed-effect model for analysis. The results show that the development of financial agglomeration can promote economic development. For every percentage increase in the total financial agglomeration, the growth rate of GDP will increase by 0.29%, and the impact of financial agglomeration on economic development is lagging.

## The Research of Using Image Explore Children's Cognition Towards Dangerous Items that Cause Fires and Understand

**Chun Pei Hsieh<sup>1\*</sup>, Fang-Suey Lin<sup>2</sup>**

<sup>1,2</sup> National Yunlin University of Science and Technology, Yunlin, Taiwan

### Abstract

---

Fire accidents are easy to cause great damage and losses to lives and properties, and the occurrence of fire accidents is more frequent as a result of the demand for fire in living activities. Dangerous items which cause fires are summed up after the collection of literature, which acts as the reference for the tested sample in this study; this study took the physical pictures of items in the life which are easy to cause fires as the testing tools to have children judge whether items that exist in the environment are dangerous. The participants in this research were from 5 to 10 years old children. There is a stage difference in the cognition for individual dangerous articles due to the age growth. School-age children have a high cognitive degree; they can know about the fire of wires in accordance with the life experience. The influence on the cognition of children towards particular dangerous items which cause fires mainly depends on the age difference, which shows that the cognition on particular dangerous items has periodic difference with the growth of age, and the differences lie in the parenting attitude and way of caregivers.

## Towards IPV6 Adoption in Developing Arab Countries in Western Asia Region

**Baha Khasawneh<sup>1\*</sup>, Batool AlArmouty<sup>2</sup>**

<sup>1,2</sup> Princess Sumaya University for Technology, Jordan

### Abstract

---

The gap of IPV6 readiness and deployment in the Mena region is significant and lagging when compared with developing nations. In this paper, we present the state of global IPV6 adoption and give an example for two countries in Western Asia, mainly Jordan and Saudi Arabia, and the efforts of other countries to deploy IPv6 and replace the old IPv4 protocol. We also highlight the challenges and outline the benefits and opportunities of migrating to the new IP protocol in terms of accessibility, innovation and economic growth.

## Leakage Analysis of Labyrinth Sealing using Mathematical Modelling

Subrat Das<sup>1\*</sup>, Abdallah Al Kindi<sup>2</sup>, Rajeev Kumar Singh<sup>3</sup>  
<sup>1,2,3</sup>Deakin University, Australia

### Abstract

---

Labyrinth sealing leakage has been investigated by means of the numerical approach. The developed mathematical model was used for studying the influence of labyrinth sealing cavity depth and number of cavities on the leakage rate. Results indicate that the cavity depth value at which minimum leakage can be achieved is dependent on the x-velocity. Leakage is the least at the depth value with the maximum velocity. The effect of number of cavities on leakage was also checked, and it was found that leakage is minimised when the number of cavities is increased. Although the current work involved a comprehensive study of the labyrinth sealing parameters, the present paper only discusses cavity depth and number of cavities for conciseness and brevity.

## Liquid Product Properties of Pyrolyzed Bamboo Sawdusts

**Lucita C. de Guzman<sup>1</sup>, Vicente M. Armones IV<sup>2</sup>, Mark Vergel<sup>3</sup>  
B. Borja<sup>4</sup>, Shaira June G. Gadot<sup>5</sup>, Dennesa Luz D. Mijares<sup>6</sup>**  
<sup>1,2,3,4,5,6</sup> School of Technology, University of the Philippines Visayas  
Miagao, Philippines

### Abstract

---

A pyrolyzer was fabricated for collection of liquid products from pyrolysis of untreated bamboo saw dust from UPV-Bamboo Enterprise Development Project. Collection and analysis of the liquid products were performed for two temperature ranges from 490-500oC and 550-560oC. Based on the generated method from the fabricated pyrolyzer, the yield ranges from 8% to 16%. The analyses included the physicochemical properties of liquid products such as the pH, viscosity, density, and heating value. For temperature ranges of 490-500oC and 550-560oC, mean values of pH were 4.47 and 4.30; density values were 1087.37 kg/m<sup>3</sup> and 1066.76 kg/m<sup>3</sup>; viscosity values were 1.32 mm<sup>2</sup>/s and 1.62 mm<sup>2</sup>/s; and heating values were 1.99 MJ/kg and 2.51 MJ/kg respectively. The results showed that there was no significant difference in the pH, viscosity, calorific value, and density of the untreated bamboo sawdust with different operating temperatures of the pyrolyzer equipment using a One-Way Analysis of Variance (ANOVA) since the p-value of each test were greater than the specified  $\alpha=0.05$  level of significance.

## **FUTURE EVENTS**

**6<sup>th</sup> INTERNATIONAL CONFERENCE ON  
“Innovative Trends in Multidisciplinary Innovation”  
(ITMAR– 2019)**

**Date:** October 19-20, 2019

**Venue:** Istanbul Gonen Hotel, Istanbul, Turkey

**Email:** [itmar@globalilluminators.org](mailto:itmar@globalilluminators.org)

**Abstract Submission Date:** September 25, 2019

**Full Paper Submission Date:** October 9, 2019

**Selected conference papers will be published in the special /regular issue of ISI/Scopus-indexed journals associated with this conference.**

**Conference Main Tracks**

- Business, Management, and Economic Studies
- Health and Medicine Studies
- Engineering & Technology Studies
- Social Sciences & Humanities
- Physical Life and Applied Sciences
- Regional and Religious Studies
- Multidisciplinary and Interdisciplinary Studies

For more details, visit [www.globalilluminators.org](http://www.globalilluminators.org)

**6<sup>th</sup> INTERNATIONAL CONFERENCE ON  
“Emerging Trends in Academic Research” (ETAR–2019)**

**Date:** November 27-28, 2019

**Venue:** The Trans Resort Bali, Indonesia

**Email:** [etar@globalilluminators.org](mailto:etar@globalilluminators.org)

**Abstract Submission Date:** November 05, 2019

**Full Paper Submission Date:** November 15, 2019

# CSR

Environment

Charities

Public Health

Growth and  
Development

Sustainability

**The Objectives of this event were:**

1. Media of education for parents and children to be aware of a digital new era and its impact on children's life
2. Facilitate and promote futsal as one of the kinds of sports activation that can be an alternative activity for children against the negative impact of the internet
3. Social activity and charity engaging orphans to enjoy sports activities together with their friends
4. Corporate Social Responsibility of the Company to contribute to society, especially to solve one of the social problems in Bandung.

**Highlights of CSR Activities are given below:**

## **Global Illuminators Malaysia Team conducted its Latest CSR activity at Rumah Charis, Kuala Lumpur, Malaysia Children Home**

Global Illuminators Malaysia Team conducted its latest CSR activity at Rumah Charis, Kuala Lumpur, Malaysia Children home. The children home ministry provides care for orphans and single-parent children. Their homes and activities aim to create a suitable environment to enable children to grow. They help to provide spiritual direction, education, and counseling for the children. Emphasis was given to fellowshiping and spending time with the children over refreshments, as well as presenting them with small gifts and the organizing of special entertainment programmes for the children such as a special game segment. One of the other highlights of the evening was the goodie bags distribution programme carried out by Global Illuminators.

## **Global Illuminators Indonesian Team conducted its Latest CSR activity in Ramadan for Local Community Welfare, sharing Happiness and developing Orphan Children**

Global Illuminators Indonesian team conducted its latest CSR activity in Ramadan for orphans. The purpose of this activity was to give happiness and develop orphans with the support of more than 60 volunteers and distribute iftar to more than 400 beneficiaries (yateem, orphan, and dhuafa). Global Illuminators Indonesian team spent time with children and conducted different activities for their moral self-development.

Highlights of this activity are given below:
